ROOSC ZAÑO

Software Developer Intern | BSIT — Web and Mobile Application Development
+639308544006 | Lucena, Quezon | zanoroosc@gmail.com
GitHub | LinkedIn | Portfolio

PROFILE

Backend-focused BSIT student building REST APIs and web and mobile applications with Django REST Framework and ASP.NET Core. Uses OpenAI Codex and Google Antigravity in an agentic workflow, reviewing and validating the resulting code.

EDUCATION

Manuel S. Enverga University Foundation | Lucena City, Quezon **Aug 2023 – 2027 (expected)**
Bachelor of Science in Information Technology — Web and Mobile Application | GWA: 1.5937 | Dean's Lister

SELECTED PROJECTS

KapitBayan (Team Capstone — Full-Stack Developer) **|** Python, Django REST, React, PostgreSQL, Flutter (Dart) **Jan - Nov 2026**

• Led the full-stack development of a barangay services platform for resident requests, queues, assistance, and incident reporting.

• Implemented resident transfer and document-payment workflows, barangay-scoped access, protected media, and Firebase notifications.

Scrib (Personal Project) **|** Python, Django REST, Django Channels, WebSockets, React, SQLite **Aug – Sept 2026**

• Used an agentic development workflow with OpenAI Codex and Google Antigravity to build a real-time multiplayer word game with shared 4×4 boards, timed rounds, and live scoring.

• Guided and reviewed server-side validation against 170,000+ TWL06 words using an order-independent, single-use tile inventory (Q supplies "Qu").

Paldo (Team Capstone — Backend Contributor) | C#, ASP.NET Core, React, PostgreSQL, Docker **May 2026**

• Restricted scholarship application status changes to authorized roles, sanitized application data, and added an API health check.

• Added backend authentication and frontend component tests, improved application-modal accessibility, and removed tracked build artifacts.

NSync (Android Project) | Kotlin, Jetpack Compose, Python, Django REST, PostgreSQL, Docker **May - Jun 2026**

• Built an Android learning app for notes, linked flashcards, review sessions, and progress tracking.

• Implemented authenticated app-to-backend flows, review-result calculation, duplicate-answer checks, and note-level card counts.

Lock-Ad (Personal Project) | Python, Django REST, React, Leaflet, OpenRouteService, Docker, Gemini **Sept 2025 - Present**

• Integrated OpenRouteService walking routes with map previews, hazard avoidance, and advisory scoring from nearby safety signals and approved reports.

• Added live incident broadcasts, user-scoped access controls, and Gemini travel advisories.

AWARDS & COMPETITIONS

Top Performer – Open iT Applied Full Stack and Data Science Bootcamp; Enverga University, Lucena **May 2026**
Team Leader & Participant – De la Salle University Hackercup; Taft, Manila **Aug 2025**
Participant - Inventi Hackathon Challenge; Makati **Oct 2025**

TECHNICAL SKILLS

Languages & Querying: Python, C#, JavaScript, TypeScript, Kotlin, SQL (PostgreSQL/SQLite)
Web & Backend: Django REST Framework, Django Channels, ASP.NET Core, React, REST APIs, OpenAPI, WebSockets
Data & AI: PostgreSQL, SQLite, Entity Framework Core, Google Gemini API (Google GenAI SDK)
Tools & Integrations: Git, Docker, Docker Compose, Cloudinary, Firebase Cloud Messaging, Leaflet, OpenRouteService
Mobile: Kotlin, Jetpack Compose; Flutter/Dart
Agentic Development: OpenAI Codex, Google Antigravity

TRAININGS & CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft **Jul 2026**
- Core cloud computing concepts, Azure architecture and services, identity management, networking, and cloud security fundamentals.

Applied Full Stack and Data Science Bootcamp | Open iT | Full Stack Development Track **May 2026**
- ASP.NET Core, React, SQL databases, REST APIs, Docker, and team-based software delivery

Django Web Framework — Meta (Cousera) **Apr 2026**
- Covers web servers, data modeling, ORM, migrations, and web security.

Tools of the Trade: Linux and SQL — Google (Cousera) **Apr 2026**
- Linux command-line basics, file and user permissions, and SQL filtering and joins.

Operating System Virtualization — Illinois Institute of Technology (Cousera) **Nov 2025**
- Coursework in hypervisors, virtual machines, and virtual networking.

Database Design and Basic SQL in PostgreSQL — University of Michigan (Cousera) **Oct 2025**
- Relational schema normalization, table relationships, indexing, and multi-table queries

Flutter and Dart: Developing iOS, Android, and Mobile Apps — IBM (Cousera) **May 2025**
- Introductory training in Flutter and Dart, covering cross-platform UI, widgets, state management, API calls, and app persistence.
