Backend-focused BSIT student building secure APIs, cross-platform web and mobile applications, asynchronous worker pipelines, and containerized systems. Seeking software engineering internships or junior backend roles.

SELECTED PROJECTS

Gridy (Team Capstone) | Django REST Framework, React, Flutter, PostgreSQL, Celery, Redis, Docker **2026 - Present**

- Served as Lead & Full-Stack Developer for a cross-platform barangay information and management system, establishing OpenAPI-driven backend contracts and RBAC across resident, officer, and admin workflows.
- Architected HttpOnly JWT cookie authentication, refresh-token rotation, and automated audit logging to enforce data privacy and endpoint security.
- Integrated Celery and Redis for background processing, Firebase Cloud Messaging (FCM) for push notifications, and Cloudinary for media asset management.
- Engineered Django REST Framework services and React management dashboards for document requests, urgency-categorized issue reporting, and public announcements.

Paldo (Team Capstone) | ASP.NET Core, React, PostgreSQL, Docker **2026**

- Architected a centralized scholarship platform featuring eligibility filtering, application tracking, and automated announcements.
- Built ASP.NET Core REST APIs and React interfaces backed by PostgreSQL database containerization.

NSync (Solo Android Final Project) | Kotlin, Jetpack Compose, Django REST Framework, Docker **2026**

- Developed a cross-platform synchronization tool featuring a native Android user interface built with Jetpack Compose.
- Implemented core backend synchronization modules in Kotlin and automated background utilities in Python.

Lock-Ad (Personal Solo Project) | Django REST Framework, React, PostgreSQL, Docker **2025 - Present**

- Evolved a full-stack commuter navigation platform using Django REST Framework and React, designing end-to-end route-planning workflows.
- Containerized application services with Docker and configured PostgreSQL schemas for production deployment.

AWARDS & CERTIFICATIONS

- Top Performer - Open iT Applied Full Stack and Data Science Bootcamp (2026)
- Microsoft Certified: Azure Fundamentals (AZ-900) (2026)
- Participant & Team Leader - DLSU Hackercup; Participant - Inventi Hackathon Challenge (2025)
- Operating System Virtualization - Illinois Institute of Technology (2025)
- Database Design and Basic SQL in PostgreSQL - University of Michigan (2025)
- Java Programming I & II; Basic Web Development - CodeChum (2025)

TECHNICAL SKILLS

Languages: Python, C#, JavaScript/TypeScript, Kotlin, Java, SQL

Backend & Web: Django REST Framework, ASP.NET Core, Node.js, REST APIs, OpenAPI, HttpOnly JWT, React, Tailwind CSS, Vite

Data & Infrastructure: PostgreSQL, SQLite, Redis, Celery, Docker, Git, GitHub Actions, Microsoft Azure

Mobile & AI/Services: Flutter, Jetpack Compose, Android Studio, Firebase FCM, Cloudinary, OpenAI, Gemini API

EDUCATION & TRAINING

Manuel S. Enverga University Foundation | Lucena City, Quezon **2023 - Present**

Bachelor of Science in Information Technology, Web and Mobile Application Development | GWA: 1.5937 | Dean's Lister

Open iT Applied Full Stack and Data Science Bootcamp | Full Stack Development Track **2026**

ASP.NET Core, React, SQL databases, REST APIs, Docker, and team-based software delivery
